The Assembly Committee Friendl to the Judiciary. SACRAMENTO, July 27 .- The Ass.

bly Committee on Constitutions Amendments met this afternoon, Mr. Heath, of Santa Cruz, presiding. Mr. Davis, of Sacramento, the proposer of an amendment reorganizing the Supreme Court, stated that he intended to introduce a substitute bill.

Mr. Hazard, of Los Angeles, said tha he had not yet met any Assemblymen who favored the reorganization of the courts. He introduced the following resolution:

Mr. Hazard temporarily withdrew his resolution, and the substitute was read. The substitute provided that the court should consist of a Chief Justice and twelve years, at an annual salary of \$9000. The salaries of Superior Judges were identical with those in the proisions of the original motion.

Mr. Davis explained that his motive

in presenting the bill was to test public opinion. Personally he had never believed that the Supreme Court needed reorganization, but an effort had been made by a portion of the press to represent that the entire people of the State thought the Supreme Court needed reform. The bill on going before the people would settle whether or not this press represented a bogus or the real sentiment of the people. The State had been flooded with newspaper supplements and pamphlets attacking the court. Somebody had evidently induced the Governor to assault the Supreme Court. The whole affair should be ventilated on the floor of the

House. An attempt had been made to induce hasty legislation.

Mr. Weaver said that in his opinion the Supreme Court ought to be re-formed, but it was inexpedient to do so

Mr. Cox said that his name was included in the list of Senators who had been purchased. He was astonished at the conduct of the paper, as he had been a riparianist for years and had never been otherwise.

Mr. Saxe thought the publication was an insult not only to the Senate, but to the people of the State, and he thought it ought to be severely puntabad.

charged with corruption. He thought the Senators who had not been attacked ought to feel that they might be at any time, and therefore he hoped that all

Mr. Johnson, of Sonoma, and Mr. Perry spoke in favor of the recolutions, and Mr. Cross spoke in favor of his substitute as nothing would be gained by a policy of resentment and revenge. Messrs. Langford, McClure and others spoke, after which Mr. Taylor's substitute was adopted unanimously. Recess.

The Filter II RAN FRANCISCO.
The Filte shove all other times. We are aware that it is difficult to get the best class of men to serve in the State Legislature; the honors are not overwhelm-ing and the emoluments not attractive to men of attainments and high business and professional standing. But the necessities of the State are great as this time. California needs not pigmies or demagogues, but attaesmen—men or brains and business—and she needs them "bad." We trust that everywhere throughout the commonwalth there will be brought to bear such a patriotic pressure by the people upon their best men as will enforce the consent of such to serve the State in the halls of legislation at Saconal allow herself to be orippled in so vital a part as her water system. Frisco's Climate and the Veterans.

The singular and surprising summer climate of San Francisco is something our coming visitors of the Grand Army may not be prepared for. Some advance hints about its peculiarities will therefore be useful to the old boye before they "strike the town" on the bay shore. The San Francisco Bulletin prints a short editorial that sums up the "salient points" of the Bay's "beastly climate," and in view of the going of some thousands of strangers to that city, we reprint the Bulletin's hints. It says: "Now August is generally the holtest month in the Atlantic States. But in San Francisco it is the coolest of the summer months. Occasional fires are kept up in the grates to make indoors comprising. Nobody goes about dressed in light lien clothes, as on the other sourcessful, he will then clothes, as on the other sourcessful, he will throw forward the party is not united. Having gone thus fait, the board of the sound of the collect of the summer months. Occasional fires are kept up in the grates to make indoors comprising. Nobody goes about dressed in light lien clothes, as on the other of the collect of the summer mornings. Nobody goes about dressed in light lien clothes, as on the other is successful, he will throw the weight of the voice of this state of the thermometer is very confortable to old clitzens who have contained in the Atlantic States. But in San Francisco in the manufacture of the summer months. Occasional fires are kept up in the grates to make indoors comprised to the contract of the contract This state of the thermometer is very comfortable to old citizens who have been broiled in the Atlantic States. But they take good care to clothe themselves according to the crigencies of the climate. It frequently happens that strangers make the mistake of wearing summer clothes in a climate which demands winter clothing. They take severe colds, and then berate the climate. Friends of these gueets cannot do better than to caution them against the risk of going about in their summer garments. There is no place where a cold can be taken sconner than in this city in midsummer, especially to strangers who have neglected the precautions that the strangers take.

The state of the thermometer is very composition to the candidates for Governor to deliver to them a majority of the votes of the criganity of the vo

part as her water system. A bad principle of law enforced at this time would work untold evils—svils that could not be cradicted in long years.

The waters of the State must belong to the State, to be conserved, controlled and distributed for the benefit of the people, not of water monopolies.

But unfortunately when they turned to the Democracy they found it under the control of a boss equally notorious for his unsorupulous and infamous campaign practices.

Twenty-five thousand Republican voters of San Francisco, who have heretofore worn the collar and brand of Higgins, Chute, Corroy & Company, were suddenly horrified to find that the firm had disagreed in the management.

as conner than in this city in midsummer, ospecially to atrangers who have neglected the precautions that all old citizens take. They know better than to go about divested of fiannels and wearing only linen ciothes. Of course San Francisco can stand any abuse of the climate in August. But those who want to enjoy it should stick to winter clothes. They will then take kindly to the winds, fogs, extra cool mornings, ann whatever else goes to make up this 'glorious climate.' The safe way is to note how citizens conform to the extensions of a low temperature in these midsummer days."

The safer way would be for the veterans to come to Southern California and stay here; but, unfortunately for them, that is not exactly practicable—this year.

William A. Buster, corner of Pine and Charity streets, 66 years of age, given up by his physicians, vemiting almost constantly, said to be suffering from cancer of the stomach, was treated by the doctor cance only, four weeks ago, when the vemiting cessed. Atcomby with a spoon. Can now eat almost anything; is confident of recovery.

Mr. Strohm of Flower street, suffering with abscess of liver for five weeks, given up by five physicians, was relieved of all pain by one treatment from Dr. Truesdell. Hext day walked to Opers Hall, over twelve blocks, for treatment, having slept well. Some nights previous, not having closed his eyes at all. Feels perfectly confident of restoration to health. Walked five miles on the 19th inst. Feels perfectly confident of restoration to health. Walked fiv miles on the 19th inst, Mrs. M. J. Kessler, Los Angles, 35 Hewit street, oured of rheumatism in hips by one treatment from the doctor. Was subject to flux and dysentery since childhood. Well next day after receiving one treatment from Mrs. Hill. Oan eat anything.

Mrs. J. B. Churchill, 15 Walnut avenue, Los Angeles, deaf 49 years from searlet fever, hearing entirely gone from one ear, restored by one of the students so that she can hear quite distinctly.

hearing entirely gone from one ear, restored by one of the students so that she can hear quite distinctly.

Mrs. T. M. Adams, Fourth street between Fort and Spring, M. E. revival prescher for twenty years, suffered for ten years with floating kidney; compelled to take morphine for years to alleviate pain. Had prayed and struggled to be delivered from taking the drug, fearing it might desiroy her soul; is willing to speak of i. publicly, that others may flud the relief which has been granted her. Dr. Truesdell saw her leaving the hall, being too weary to sit longer. He said: "There's a sister who is suffering, and she is dilled with the Holy Ghosti Come back! God has something for you?" He laid his hands on her, and the spirit came with power. The kidney was restored to its place, the brain relieved at once and the deaire for morphine was gone, and she has not again used it. She warned the audience with great earnestness "to beware how they denied that this was the power of God." She can now, after all these years of suffering, digest her food and sleep as when a child.

Mrs. John Sutherland, 12: Fifth street, Los Angeles, diyears of age, born deaf in right ear, received one treatment from the doctor and two from Mrs. Hill. Can now hear sounds, music, etc.

J. H. Wells had severe fever and chills, with deathly sickness at stomach and fainness; had difficulty in getting to the office; was relieved in about affect minutes, went home by himself; next day was as well as ever.

J. W. Tarner, Los Angeles, lung trouble over five years; never any relief from other doctors; received four or five treatments from Dr. Truesdell about five weeks ago; was hardly able to get around before; now able to do anything. Pain constantly before in the chest: now none, only a slight cough left.

Lady with granulated cyclids of six months standing cured by one treatment from the doctor. Severe neursigts in head, for three years, entirely fured in four or five treatments by two of the students.

E. A. DOW,

Secretary Investigating Committee.

We, the graduating class referred to above, take this opportunity of informing the public, for the banelt of the sick and the cause of Christian science, that we, too, have been successful in relieving pain and curing disease by the soul healing power, as most faithfully taught us by Dr. A. P. Truesdell, among which diseases we mention deafness, rhematism, neuralgia, asthma, dyspeptia, contripation, paralysis, chronic and scule infammation, pleurissy, catarrh, morphine eating, the tobacco habit, etc.

In the Grain market the situation is substantially unchanged as regards Wheat, both here and in San Francisco. In the latter city an increased demand for Feed Barley is noted, with some stiffening in prices. The market for Oaks is slow. Buyers generally consider the asking prices too high, and purchase only for immediate requirements.
